

# Customer Review of Kennys Floor Covering Incorporated

## **A small store provides happy customers**

*By: Dawn C. (08/08/06)*

There are a couple carpet suppliers in McHenry and this one just happens to be walking distance from me. The store is small and to be honest I didn't even give them a thought. I figured their prices would be high and they didn't have much to offer. I was wrong.

I looked around and price compared as I always do, when my sister told me to give Kenny's a try. I thought what the heck and I did. I ended up ordering my carpet from them and got a price I was very happy with.

In fact a year ago I needed a remanent and once again I figured their store was too small. After not finding one, I'll give you one guess where I ended up buying it. Correct, Kenny's.

My advice, don't pass judgement on the little guys.
