

# The 7th CPC Symposium ON PEPTIDE THERAPEUTICS

Since its inception in 2010, the CPC symposium has become an annual scientific event that brings together scientific leaders in peptide-based therapeutics from biopharmaceutical industries and academia.

This year, The 7th CPC Symposium on Peptide Therapeutics will continue this tradition of successful conferences. The meeting will offer a forum for scientific discussions of recent developments in the exciting field of peptide therapeutics and will feature lectures on a broad range of topics including new technologies, drug discovery, CMC, and clinical developments.

## PROGRAM OVERVIEW

- Overview and perspectives of peptide therapeutics
- Peptide-based drug discovery and preclinical development
- New developments in neoantigens, intracellular and GI delivery technologies
- Manufacturing, analytical development and regulatory for peptide therapeutics
- Peptide-based therapeutics in clinical development
