

H O M E T O U R T I P S

I promise that I will bring the same level of professionalism that I always would when representing you as my client, the only difference will be the extra steps we take to make sure everyone stays healthy. My priority has always been client satisfaction and now health and wellbeing are another priority. Rest assured that we are taking extra care to make sure that business will continue as usual while keeping everyone healthy in the process. Thank you for your trust and patience!

Be sure to wash your hands before and after handling anything in the home. It is a good idea to keep hand sanitizer handy to use after you leave a property.

Do your best to refrain from touching or handling anything unnecessary, this is to keep you from grabbing something that may be dirty and to keep the homeowner from having to disinfect everything after each showing.

Be mindful of simple things, if the lights are on leave them on, don't close open doors, leave items where they are, and don't play with light switches.
