Try and log in with your old username and password. It will tell you there is a problem. And give you the option to reset your password. Do it. You will receive an email with a link to reset your password. After you do that, you will be able to log in.

All the old permissions are in place and you will see the forums you have permission to see.

Here's something like what you will see when you are logged in.

You can see recent topics and select any of them if you are interested in it. OR you can click on ADD Topic TO START A NEW THREAD.

If you click on the thread title it will open up to the post where you can reply. It's all very similar to the old forum.
